

SAINT PETERSBURG PRESERVATION

2008 PRESERVATION AWARDS NOMINATION

FORM - Deadline: for Receipt April 25, 2008

Saint Petersburg Preservation works to preserve our community's history and to save the landmarks that make our city special. We encourage you to nominate property owners who have taken the extra step to ensure that our city retains its special character and heritage.

AWARD CATEGORIES AND CRITERIA:

Residential and Commercial

Restoration - Awards in these categories recognize exemplary restoration of historic buildings that allow for contemporary use. A restoration project accurately returns a building to an earlier condition and/or appearance based on historical or physical evidence. Compliance with the Secretary of the Interior's Standards for the treatment of historic properties will be considered although is not mandatory to be eligible for an award.

Residential and Commercial

Rehabilitation - Awards in this category recognize exemplary rehabilitation of historic buildings. A rehabilitation project preserves significant features of a building that convey its historic value, including historic changes, while making possible an efficient contemporary use for the building.

Compatible Use - Awards in this category recognize a contemporarily designed or new building that exemplifies the building's compatibility with that of an adjacent or nearby historic structure, including consideration of the scale and style of the new building, the materials used in its construction and the overall appearance of the new structure in relation to the historic building. The new building need not mimic the detail of the historic building in order to be eligible for this award.

Adaptive Reuse - Awards in this category recognize exemplary adaptive reuse of historic buildings. Adaptive reuse preserves some of the significant features of the historic building although not to the extent to consider the building as having been rehabilitated and allows for a contemporary use of the historic building.

Residential and Commercial

Stewardship - Awards in this category are presented to long term owners of property who are ensuring the preservation of historic structures or other features of a property through care and maintenance, stabilization or other protection of the historic structure or feature.

Preservationist of the Year - This award may be given to a St. Petersburg resident or local group who has demonstrated exemplary and sustained activities in promoting the preservation of historic structures in St. Petersburg or in promoting awareness in the field of historic preservation. While the focus of the award is on local action the work of the individual or group on a state or national level may also be considered.

2008 PRESERVATION AWARDS

Nomination Form for Buildings

Instructions: Applications should be sent to St. Petersburg Preservation, P.O. Box 838, St. Petersburg, FL 33731 and must be received on or before April 25, 2008.
